Trust and Identity Incubator

SSH in a federated world
Workshop 2

Niels van Dijk (SURF)

Trust & Identity Incubator lead

Welcome and introduction - Niels van Dijk (Incubator)

Product presentations and demo's
- 09:40 → 10:00 DAASI - Peter Gietz (DAASI)
- 10:00 → 10:20 SSH Certificates and Federated Identity - Freek Petersen (DeiC)
- 10:20 → 10:40 SSH-OIDC - Diana Gudu, Marcus Hardt (KIT)

Break

- 10:50 → 11:10 Leveraging your federated identity to authorize SSH sessions - Martin van Es (SURF)
- 11:10 → 11:30 Moonshot - Alex Perez (JISC)
- 11:30 → 11:50 Questions and Discussion

Wrap Up & Follow-up

So, what's next?

- Workshop 1: requirements and needs
- Workshop 2: product presentations and demo's
- Work in progress (incubator team): Whitepaper

What would you like to see? What did we miss?

- Provisioning users in more detail
- File access on the local VM after federated login to SSH (KREST, others?)
- Re-engage with research communities who have the need

Thank you
