Minutes:

1. **Terena TNC BOF (17. may)**#* BOF organisers: Thorkild & ? (looking for a volunteer)
     - BOF agenda:
       - start with statistisc
         - (Thorkild has numbers of installations, hours of usage are still missing)
         - EACU users have to put numbers on Terena website (meeting hours/ no of users, disk cost)
       - compare web conf. systems
         - which systems are considered - invite individuals (5 presenters .. sum 45 min)
           - Blue Button - ask Carnet
           - Ms Lync - ask Jan Meier
           - Webex - Marcus?
           - iluminate - ?
         - add H.323 software solution comparisement (scopia desktop, vidyo, tandbergMOVI, conferenceME,)
       - create a table with features per web conf system
         - list of features: Johnny has a large list / Thorkild has a table
       - videoconf use case scenarious (which sollution is best)
         - prepare **list of scenarious** (Olivier)
       - Nrens roadmap (cost - support - upgrade)
2. **bugs and features**#* matjaz will post features / bugs on wiki
     - new BUG: loosing audio in long meetings (some users don't hear all other users)
     - new BUG: loosing audio in long meetings (some users don't hear all other users)
     - new feature: use UDP for audio when possible - with fall back to TCP
     - bug: very high CPU usage in ubuntu when using Addin
     - bug: ubuntu & mac have problems in firefox withouth addin (cert problems)
3. **offline recpordings**#* Dalarma UNI is working on an app (ready in one month, one raster stream all pods)
     - John Schumann mentioned some progress on adobe site ... watch the recording
4. **mobile**#* new feature: poll support for android
     - sso is not working on mobile (Matjaz find exception url for android)
5. **performance of V8**#* video usage causes high CPU on the server
     - huge difference
       - 1 aud/vid -> hundred participants ->low CPU
       - many aud /vid -> not many participants -> high CPU
       - additional tests needed (Thorkild, Matjaz)
6. **wiki Terena**#* documentation is relavant for v7
     - ask Niels van Dyke if he is willing to update to v8
7. **next meetings**#* next meeting is TNC BOF
     - meeting after BOF: doodle last 3 weeks in june (matjaz foodle)
